MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of June, the Department of Human Services received 3,925 applications for Aid to Families with Dependent Children, an increase of 129 (3.4 percent) over the number received during May. In comparison with the number of applications received during June of the preceding year, there was a decrease of 264 applications (6.3 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,711 AFDC applications during June. This number was 55.7 percent of the total applications on hand. It compares with 57.5 percent of the total number on hand for which investigations were completed during the preceding month and 62.3 percent for which investigations were completed during the same month of the preceding year. Two thousand four hundred and thirty-one (2,431) (65.5 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during June, in comparison with 2,370 applicants (64.1 percent of those investigated) approved the preceding month and 2,655 applicants (61.7 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 2.6 percent over the number approved in May, but a decrease of 8.4 percent from the number approved in June, 1980. The rate of approvals for the AFDC Program increased over the preceding month by 1.4 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 3.8 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during June amounted to $7,405,583.95. This was a decrease of less than 0.05 percent over the amount of money payments for May, but an increase of 5.8 percent over the money payments for June of the preceding year. Payments were made for 66,225 families with 122,122 children at an average grant of $111.81 per family and $60.63 per child. The average grant increased over May by $0.33 per family and $0.20 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.95 per family but increased $0.81 per child.

CASES CLOSED

Two thousand seven hundred and seventy-three (2,773) AFDC cases were closed during June, an increase of 5.7 percent over the May closures. In comparison with the same month of the preceding year, the closures showed an increase of 29.3 percent. One thousand and fifty-two (1,052) (37.9 percent) of the AFDC cases closed during June were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand seven hundred and twenty-one (1,721) (62.1 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of August, the Department of Human Services received 4,647 applications for Aid to Families with Dependent Children, an increase of 615 (15.3 percent) over the number received during July. In comparison with the number of applications received during August of the preceding year, there was a decrease of 438 applications (8.6 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,205 AFDC applications during August. This number was 53.3 percent of the total applications on hand. It compares with 53.5 percent of the total number on hand for which investigations were completed during the preceding month and 64.3 percent for which investigations were completed during the same month of the preceding year. Two thousand six hundred and eighty-two (2,682) (63.8 percent for those on whose requests for assistance final decisions were made) were found to be eligible for assistance during August, in comparison with 2,304 applicants (61.7 percent of those investigated) approved the preceding month and 3,086 applicants (60.4 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 16.4 percent over the number approved in July but a decrease of 13.1 percent from the number approved in August, 1980. The rate of approvals for the AFDC Program increased over the preceding month by 2.1 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 3.4 percent

ASSISTANCE PAYMENTS

Money payments for AFDC during August amounted to $7,403,285.79. This was an increase of 1.0 percent over the amount of money payments for July and an increase of 2.3 percent over the money payments for August of the preceding year. Payments were made for 65,978 families with 121,566 children at an average grant of $112.21 per family and $60.90 per child. The average grant increased over July by $0.73 per family and $0.43 per child. In comparison with the same month of last year, the average grant showed a decrease of $1.75 per family but increased $0.03 per child.

CASES CLOSED

Two thousand eight hundred and fifty-one (2,851) AFDC cases were closed during August, an increase of 16.8 percent over the July closures. In comparison with the same month of the preceding year, the closures showed an increase of 48.9 percent. Nine hundred and fifty-eight (958) (33.6 percent) of the AFDC cases closed during August were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand eight hundred and ninety-three (1,893) (66.4 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of September, the Department of Human Services received 5,310 applications for Aid to Families with Dependent Children, an increase of 663 (14.3 percent) over the number received during August. In comparison with the number of applications received during September of the preceding year, there was an increase of 15 applications (0.3 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 5,613 AFDC applications during September. This number was 62.4 percent of the total applications on hand. It compares with 53.3 percent of the total number on hand for which investigations were completed during the preceding month and 61.2 percent for which investigations were completed during the same month of the preceding year. Three thousand nine hundred and fifty-three (3,953) (70.4 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during September, in comparison with 2,682 applicants (63.8 percent of those investigated) approved the preceding month and 2,991 applicants (60.1 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 47.4 percent over the number approved in August and an increase of 32.2 percent over the number approved in September, 1980. The rate of approvals for the AFDC Program increased over the preceding month by 6.6 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 10.3 percent.

ASSISTANCE PAYMENTS

AFDC money payments during September amounted to $7,441,719.07. This was an increase of 0.5 percent over the amount of money payments for August and an increase of 1.9 percent over the money payments for September of the preceding year. Payments were made for 66,067 families with 121,691 children at an average grant of $112.64 per family and $61.15 per child. The average grant increased over August by $0.43 per family and $0.25 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.90 per family but increased $0.55 per child.

CASES CLOSED

Two thousand five hundred and fifty-one (2,551) AFDC cases were closed during September, a decrease of 10.5 percent from the August closures. In comparison with the same month of the preceding year, the closures showed an increase of 15.1 percent. Eight hundred ninety (890) (34.9 percent) of the AFDC cases closed during September were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand six hundred and sixty-one (1,661) (65.1 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF MEDICAL ASSISTANCE

APPLICATIONS RECEIVED During the month of September, the Department of Human Services received 2,915 applications for Medical Assistance. Of this number, 294 were children's applications for Medicaid Only, 818 were aged persons applying for Medically Needy, 2 were applications for Blind Medically Needy, 947 were for Disabled Medically Needy, and 854 were children's applications for the Medically Needy Program.

APPLICATIONS DISPOSED OF Investigations were completed on 3,235 applications during the month. Three hundred thirty-eight (338) applications processed were Medicaid Only, 931 were Aged Medically Needy, 1 was Blind Medically Needy, 1,305 were Disabled Medically Needy, and 660 were children's applications for Medically Needy. Of the total number processed, 1,384 (or 42.8 percent) were determined eligible for Medical Assistance. There were 285 Medicaid Only approvals, 472 Aged Medically Needy approvals, 1 Blind Medically Needy, 420 Disabled Medically Needy, and 206 were children's applications approved for Medically Needy. At the end of September, the workers in the Department had 2,567 applications which had not been disposed of and were pending to next month. The total pending was made up of 222 Medicaid Only applications and for the Medically Needy Program, 844 were Aged, 2 Blind, 873 Disabled, and 626 Children.

NURSING HOME CARE (SSI) ACTIVITY

CERTIFICATION REQUESTS During the month of September, workers in the local offices of the Department received 254 initial requests to determine income of SSI recipients in skilled or intermediate care facilities. These requests, when added to the 372 left pending at the end of August, made a total of 626 on hand during the month. Of these, 273 were completed during the month and 353 were pending at the end of September.

CERTIFICATION CASES At the end of August, there were 5,802 income certification cases continued to next month. These cases added to the 273 new cases for September, made a total active case load of 6,075. Of these, 246 had their benefits terminated during the month because they were no longer eligible, leaving 5,829 cases still active at the end of September.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of October, the Department of Human Services received 5,576 applications for Aid to Families with Dependent Children, an increase of 266 (5.0 percent) over the number received during September. In comparison with the number of applications received during October of the preceding year, there was an increase of 1,131 applications (25.4 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 5,611 AFDC applications during October. This number was 62.6 percent of the total applications on hand. It compares with 62.4 percent of the total number on hand for which investigations were completed during the preceding month and 61.7 percent for which investigations were completed during the same month of the preceding year. Three thousand eight hundred and twenty-seven (3,827) (68.2 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during October, in comparison with 3,953 applicants (70.4 percent of those investigated) approved the preceding month and 2,898 applicants (70.4 percent of those investivated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 3.2 percent from the number approved in September, but an increase of 32.1 percent over the number approved in October, 1980. The rate of approvals for the AFDC Program decreased from the preceding month by 2.2 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 6.4 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during October amounted to $6,285,468.89. This was a decrease of 15.5 percent from the amount of money payments for September and a decrease of 14.6 percent from the money payments for October of the preceding year. Payments were made for 55,021 families with 100,092 children at an average grant of $114.24 per family and $62.80 per child. The average grant increased over September by $1.60 per family and $1.65 per child. In comparison with the same month of last year, the average grant showed an increase of $0.63 per family and $1.96 per child.

CASES CLOSED

Twelve thousand two hundred and eighty-seven (12,287) AFDC cases were closed during October, an increase of 381.7 percent over the September closures. In comparison with the same month of the preceding year, the closures showed an increase of 398.5 percent. One thousand one hundred and forty-two (1,142) (9.3 percent) of the AFDC cases closed during October were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. Eleven thousand one hundred and forty-five (11,145) (90.7 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or change in policy.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of November, the Department of Human Services received 4,284 applications for Aid to Families with Dependent Children, a decrease of 1,292 (23.2 percent) from the number received during October. In comparison with the number of applications received during November of the preceding year, there was a decrease of 104 applications (2.4 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,533 AFDC applications during November. This number was 59.4 percent of the total applications on hand. It compares with 62.6 percent of the total number on hand for which investigations were completed during the preceding month and 62.1 percent for which investigations were completed during the same month of the preceding year. Two thousand eight hundred and seventy-five (2,875) (63.4 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during November, in comparison with 3,827 applicants (62.6 percent of those investigated) approved the preceding month and 2,836 applicants (62.1 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 24.9 percent from the number approved in October, but an increase of 1.4 percent over the number approved in November, 1980. The rate of approvals for the AFDC Program decreased from the preceding month by 4.8 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 1.0 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during November amounted to $6,171,130. This was a decrease of 1.8 percent from the amount of money payments for October and a decrease of 16.8 percent from the money payments for November of the preceding year. Payments were made for 55,136 families with 100,093 children at an average grant of $111.93 per family and $61.65 per child. The average grant decreased from October by $2.31 per family and $1.15 per child. In comparison with the same month of last year, the average grant showed a decrease of $1.55 per family but an increase of $0.72 per child.

CASES CLOSED

One thousand seven hundred and eighteen (1,718) AFDC cases were closed during November, a decrease of 86.0 percent from the October closures. In comparison with the same month of the preceding year, the closures showed a decrease of 24.4 percent. Six hundred and seventy-six (676) (39.3 percent) of the AFDC cases closed during November were closed because of a change in economic circumstances, chiefly employment, increased earnings, of receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand and forty-two (1,042) (60.7 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procecural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of January, the Department of Human Services received 4,061 applications for Aid to Families with Dependent Children, an increase of 428 (11.8 percent) over the number received during December, 1981. In comparison with the number of applications received during January of the preceding year, there was an increase of 84 applications (2.1 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,024 AFDC applications during January. This number was 60.1 percent of the total applications on hand. It compares with 60.9 percent of the total number on hand for which investigations were completed during the preceding month and 61.7 percent for which investigations were completed during the same month of the preceding year. Two thousand five hundred and twenty - one (2,521) (62.6 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during January, in comparison with 2,671 applications (65.2 percent of those investigated) approved the preceding month and 2,428 applicants (62.1 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 5.6 percent from the number approved in December, but an increase of 3.8 percent over the number approved in January, 1981. The rate of approvals for the AFDC Program decreased from the preceding month by 2.6 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 0.5 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during January amounted to $6,302,077.00. This was an increase of 0.9 percent over the amount of money payments for December, but a decrease of 15.5 percent from the money payments for January of the preceding year. Payments were made for 56,229 families with 101,751 children at an average grant of $112.08 per family and $61.94 per child. The average grant decreased from December by $0.03 per family but increased $0.10 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.45 per family but an increase of $1.29 per child.

CASES CLOSED

Two thousand five hundred and nineteen (2,519) AFDC cases were closed during January, an increase of 28.1 percent over the December closures. In comparison with the same month of the preceding year, the closures showed an increase of 22.7 percent. Seven hundred and forty-nine (749) (29.7 percent) of the AFDC cases closed during January were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand seven hundred and seventy (1,770) (70.3 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of February, the Department of Human Services received 4,019 applications for Aid to Families with Dependent Children, a decrease of 42 (1.0 percent) from the number received during January. In comparison with the number of applications received during February of the preceding year, there was an increase of 362 applications (9.9 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,724 AFDC applications during February. This number was 55.7 percent of the total applications on hand. It compares with 60.1 percent of the total number on hand for which investigations were completed during the preceding month and 60.8 percent for which investigations were completed during the same month of the preceding year. Two thousand two hundred and ninety-seven (2,297) (61.7 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during February, in comparison with 2,521 applicants (62.6 percent of those investigated) approved the preceding month and 2,315 applicants (62.6 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 8.9 percent from the number approved in January, and a decrease of 0.8 percent from the number approved in February, 1981. The rate of approvals for the AFDC Program decreased from the preceding month by 0.9 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 0.9 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during February amounted to $6,255,774.00. This was a decrease of 0.7 percent from the amount of money payments for January, and a decrease of 16.3 percent from the money payments for February of the preceding year. Payments were made for 55,907 families with 101,026 children at an average grant of $111.90 per family and $61,92 per child. The average grant decreased from January by $0.18 per family and $0.02 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.38 per family but an increase of $1.36 per child.

CASES CLOSED

Two thousand four hundred and four (2,404) AFDC cases were closed during February, a decrease of 4.6 percent from the January closures. In comparison with the same month of the preceding year, the closures showed an increase of 14.0 percent. Nine hundred and two (902) (37.5 percent) of the AFDC cases closed during February were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand five hundred and two (1,502) (62.5 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of March, the Department of Human Services received 4,162 applications for Aid to Families with Dependent Children, an increase of 143 (3.6 percent) over the number received during February. In comparison with the number of applications received during March of the preceding year, there was a decrease of 309 applications (6.9 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 4,514 AFDC applications during March. This number was 63.3 percent of the total applications on hand. It compares with 55.7 percent of the total number on hand for which investigations were completed during the preceding month and 64.4 percent for which investigations were completed during the same month of the preceding year. Two thousand eight hundred and sixty-one (2,861) (63.4 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during March, in comparison with 2,297 applicants (61.7 percent of those investigated) approved the preceding month and 2,863 applicants (64.8 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 24.6 percent over the number approved in February, but a decrease of 0.1 percent from the number approved in March, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 1.7 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 1.4 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during March amounted to $6,384,574.00. This was an increase of 2.1 percent over the amount of money payments for February, but a decrease of 16.3 percent from the money payments for March of the preceding year. Payments were made for 56,241 families with 101,533 children at an average grant of $112.63 per family and $62.39 per child. The average grant increased over February by $0.73 per family and $0.47 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.35 per family but an increase of $1.35 per child.

CASES CLOSED

Two thousand two hundred and twenty-seven (2,227) AFDC cases were closed during March, a decrease of 7.4 percent from the February closures. In comparison with the same month of the preceding year, the closures showed a decrease of 8.3 percent. Nine hundred and twenty-six (926) (41.6 percent) of the AFDC cases closed during March were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand three hundred and one (1,301) (58.4 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of April, the Department of Human Services received 3,600 applications for Aid to Families with Dependent Children, a decrease of 562 (13.5 percent) from the number received during March. In comparison with the number of applications received during April of the preceding year, there was a decrease of 336 applications (8.5 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,709 AFDC applications during April. This number was 59.7 percent of the total applications on hand. It compares with 63.3 percent of the total number on hand for which investigations were completed during the preceding month and 58.7 percent for which investigations were completed during the same month of the preceding year. Two thousand four hundred and fifteen (2,415) (65.1 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during April, in comparison with 2,861 applicants (63.4 percent of those investigated) approved the preceding month and 2,413 applicants (64.5 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 15.6 percent from the number approved in March, but an increase of 0.1 percent over the number approved in April, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 1.7 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 0.6 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during April amounted to $6,221,106.00. This was a decrease of 2.6 percent from the amount of money payments for March, and a decrease of 16.7 percent from the money payments for April of the preceding year. Payments were made for 55,827 families with 100,542 children at an average grant of $111.44 per family and $61.88 per child. The average grant decreased from March by $1.19 per family and $0.51 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.36 per family but an increase of $1.34 per child.

CASES CLOSED

Two thousand five hundred and fifty-three (2,553) cases were closed during April, an increase of 14.6 percent over the March closures. In comparison with the same month of the preceding year, the closures showed a decrease of 2.1 percent. Nine hundred and ninety-five (995) (39.0 percent) of the AFDC cases closed during April were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand five hundred and fifty-eight (1,558) (61.0 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirements, or requested that their cases be closed.

MONTHLY REVIEW OF MEDICAL ASSISTANCE

There were 242 Medicaid Only approvals, 418 Aged Medically Needy approvals, 0 Blind Medically Needy, 211 Disabled Medically Needy, and 218 were children's applications approved for Medically Needy. At the end of April the workers in the Department had 2,337 applications which had not been disposed of and were pending to next month. MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of May, the Department of Human Services received 3,996 applications for Aid to Families with Dependent Children, an increase of 396 (11.0 percent) over the number received during April. In comparison with the number of applications received during May of the preceding year, there was an increase of 200 applications (5.3 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,800 AFDC applications during May. This number was 58.5 percent of the total applications on hand. It compares with 59.7 percent of the total number on hand for which investigations were completed during the same month of the preceding year. Two thousand four hundred and eleven (2,411) (63.4 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during May, in comparison with 2,415 applicants (65.1 percent of those investigated) approved the preceding month and 2,370 applicants (64.1 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 0.2 percent from the number approved in April, but an increase of 1.7 percent over the number approved in May, 1981. The rate of approvals for the AFDC Program decreased from the preceding month by 1.7 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 0.7 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during May amounted to $6,222,605.00. This was a decrease less than 0.05 percent from the amount of money payments for April and a decrease of 16.0 percent from the money payments for May of the preceding year. Payments were made for 55,665 families with 100.284 children at an average grant of $111.79 per family and $62.05 per child. The average grant increased over April by $0.35 per family and $0.17 per child. In comparison with the same month of last year, the average grant showed an increase of $0.31 per family and an increase of $1.62 per child.

CASES CLOSED

Two thousand two hundred and five (2,205) AFDC cases were closed during May, a decrease of 13.6 percent from the April closures. In comparison with the same month of the preceding year, the closures showed a decrease of 15.9 percent. Nine hundred and seventeen (917) (41.6 percent) of the AFDC cases closed during May were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand two hundred and eighty-eight (1,288) (58.4 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.

During the month of June, the Department of Human Services received 4,258 applications for Aid to Families with Dependent Children, an increase of 265 (6.6 percent) over the number received during May. In comparison with the number of applications received during June of the preceding year, there was an increase of 333 applications (8.5 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,858 AFDC applications during June. This number was 55.5 percent of the total applications on hand. It compares with 58.5 percent of the total number on hand for which investigations were completed during the preceding month and 55.7 percent for which investigations were completed during the same month of the preceding year. Two thousand three hundred and eighty-five (2,385) (61.8 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during June, in comparison with 2,411 applicants (63.4 percent of those investigated) approved the preceding month and 2,431 applicants (65.5 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented a decrease of 1.1 percent from the number approved in May, and a decrease of 1.9 percent from the number approved in June, 1981. The rate of approvals for the AFDC Program decreased from the preceding month of 1.6 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed a decrease of 3.7 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during June amounted to $6,167,272.00. This was a decrease of 0.9 percent from the amount of money payments for May, and a decrease of 16.7 percent from the money payments for June of the preceding year. Payments were made for 55,325 families with 99,497 children at an average grant of $111.47 per family and $61.98 per child. The average grant decreased from May by $0.32 per family and $0.07 per child. In comparison with the same month of last year, the average grant showed a decrease of $0.34 per family but an increase of $1.35 per child.

CASES CLOSED

Two thousand five hundred and fourteen (2,514) AFDC cases were closed during June, an increase of 14 percent over the May closures. In comparison with the same month of the preceding year, the closures showed a decrease of 9.3 percent. One thousand and eighty-four (1,084) (43.1 percent) of the AFDC cases closed during June were closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand four hundred and thirty (1,430) (56.9 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement, or requested that their cases be closed.

MONTHLY REVIEW OF AFDC

APPLICATIONS RECEIVED

During the month of July, the Department of Human Services received 4,182 applications for Aid to Families with Dependent Children, a decrease of 76 (1.8 percent) from the number received during June. In comparison with the number of applications received during July of the preceding year, there was an increase of 150 applications (3.7 percent).

APPLICATIONS DISPOSED OF

Investigations were completed on 3,886 AFDC applications during July. This number was 53.4 percent of the total applications on hand. It compares with 55.5 percent of the total number on hand for which investigations were completed during the preceding month and 53.5 percent for which investigations were completed during the same month of the preceding year. Two thousand four hundred and eight (2,408) (62.0 percent of those on whose requests for assistance final decisions were made) were found to be eligible for assistance during July, in comparison with 2,385 applicants (61.8 percent of those investigated) approved the preceding month and 2,304 applicants (61.7 percent of those investigated) approved the corresponding month of last year. The number approved during the current month represented an increase of 4.5 percent over the number approved in July, 1981. The rate of approvals for the AFDC Program increased over the preceding month by 0.2 percent and if a comparison is made with the corresponding month of last year, the rate of approvals showed an increase of 0.3 percent.

ASSISTANCE PAYMENTS

Money payments for AFDC during July amounted to $6,419,156.00. This was an increase of 4.1 percent over the amount of money payments for June, but a decrease of 12.4 percent from the money payments for July of the preceding year. Payments were made for 55,111 families with 99,221 children at an average grant of $116.48 per family and $64.70 per child. The average grant increased over June by $5.01 per family and $2.72 per child. In comparison with the same month of last year, the average grant showed an increase of $5.00 per family and an increase of $4.23 per child.

CASES CLOSED

Two thousand four hundred and seventy-four (2,474) AFDC cases were closed during July, a decrease of 1.6 percent from the June closures. In comparison with the same month of the preceding year, the closures showed an increase of 1.4 percent. One thousand and thirty-one (1,031) (41.7 percent) of the AFDC cases closed during July aere closed because of a change in economic circumstances, chiefly employment, increased earnings, or receipt of OASDI, making these cases no longer in need in accordance with the standards of the Department. One thousand four hundred and forty-four (1,444) (58.3 percent of the total number closed) had had no change in economic circumstances, but were closed because they could no longer meet some eligibility requirement other than need, refused to comply with procedural requirement, or requested that their cases be closed.
